

RIKEN-RIBF Materials and Life Science Research Proposal

Please complete the form in typeface.

Spokesperson

Name:

Affiliation:

Address:

Phone:

FAX:

Title of position:

E-mail:

Liaison at RIKEN

Please specify if the spokesperson is not a member of RIKEN.

Name:

Laboratory or group:

E-mail:

All correspondence concerning this proposal will be sent to the spokesperson listed above.

Members of the Research Group (name, institution, status)

Experiment Title:

Days Requested:

days

Summary (~100 words)

Site of Experiment: AVF RILAC RRC (Beam line _____)

Primary Beam: Nuclide _____ Energy _____ MeV/nucleon Intensity _____

If you use RI beams, please specify below:

Nuclide	Energy (MeV/nucleon)	Intensity (particles/s)	Beam on target time (days/hours)

This is

1. a new proposal,
 2. a continuation (the proposal must be accompanied by reports on previous experiments).

Date Received:

Days Allocated:

Classification:

Exp. No.

Objectives and Impacts of the Experiment

Illustrate the essence of your experiment clearly in case the PAC members are not so familiar with it. Details could be given as additional documents (free format).

Objectives and Impacts of the Experiment

Setup of the experiment

Basis for estimating the number of days requested for the experiment

Comparison between your experiment and similar ones by other research groups

Recent publication related to this proposal

Proposal that includes these cover sheets should be submitted electronically via designated uploader. For details, please see the latest "Call for Proposals".
